Camello+ USE CASES

Deploying Camello+ to serve diverse industries through different applications.
Always Something for Everyone

Camello+ FEATURES & BENEFITS

DELIVERY

Autonomous Navigation System

360-degree Video Camera

Battery Life (8 hours)

Emergency Stop Button

Ultrasonic Sensors

Live Audio and Two-way Intercom

Obstacle Avoidance (Static and Dynamic)

Broadcast Messages

LCD Digital Touch Screen Display

Fleet Management & Control System (FMCS)

Self-Recharging Capabilities

Multi-Storey Capabilities

Differential Steering

Multi Terrain Traverse

SECURITY

Including all above features

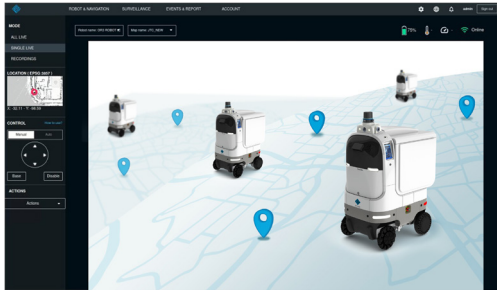

Built-in Flashing Lights

Audible Siren Alarm

Camello+ FEATURES & BENEFITS

Fleet Management & Control System

Centralized FMCS software facilitates seamless collaboration and coordination in a robotic fleet, ensuring dynamic task allocation and real-time monitoring.

360° Video Recording

Ability to capture incidents 24/7 allows for documenting and analyzing evidence in cases of dispute, ensuring transparency and accountability at all times.

3D Lidar & Ultrasonic Sensors

Enable obstacle detection and avoidance to ensure safe and intelligent path planning, and enhancing efficiency in the overall navigation process.

LCD Digital Touch Screen Display

An intuitive interface enhances user experience, enabling seamless item retrieval and providing an added security feature.

Live Audio & 2-Way Intercom

Enhances customer support through direct line of communication, providing immediate assistance without physical presence.

Omni-Wheels & Differential Steering

Provides improved maneuverability and better energy efficiency, including the ability to rotate on the spot and make tight turns.

Fail-Safe Braking System

Ensuring the robot stays securely anchored at all times, preventing any unintended rolling even on slopes in the event of a power cut.

Certified Lithium-Ion Phosphate Batteries

UL and CE certified, meeting rigorous safety and quality standards, ensuring enhanced safety, longer cycle life, and thermal stability.

Camello+ REASONS TO BUY

Experience Convenience, Reliability, and Cost-Efficiency with Camello+

Every Camello+ provides these solutions, empowering our clients to seamlessly integrate them into their services.

"RaaS" Robot as a Service

Customers can simply deploy our robots and pay a subscription price with minimal upfront capital costs. OTSAW continually maintains, enhances, and upgrades the robots, ensuring the product's integrity.

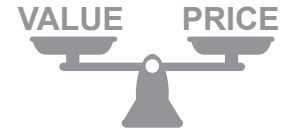

RaaS is an all-inclusive,
monthly subscription service

Covers everything from
machinery, setup, maintenance and support

No hefty upfront costs
for the end-user

Value and price is consistent,
without variable pricing or costs
